

Journal of Nature Studies

Volume 21 Number 1 2022

**Scientific Peer-Reviewed Journal Published by
the Philippine Society for the Study of Nature, Inc.**

Photo by: CONserve-KAIGANGAN Program

ABOUT THE PHOTO: The cover of this issue features a two-spotted flying lizard (*Draco bimaculatus* Günther, 1864). This endemic reptile species is found in the forest over limestone ecosystem of Guiuan, Eastern Samar, Philippines. Guiuan is one of the study sites of **Assessment and Conservation of Forest Over Limestone Ecosystem Biodiversity in Selected Municipalities of Samar Island, Philippines (CONserve-KAIGANGAN)**, a biodiversity program of the University of the Philippines Los Baños (UPLB) and Samar State University (SSU). Funded by the Department of Science and Technology (DOST), this three-year program aims to assess and conserve the biodiversity in *kaigangan* (Samar local term for forests over limestone) towards sustainable management in Samar Island.
